COMMITTEE ON OUTER SPACE (Interdepartmental-State Chaired)

NSAM 192 - Further action under

SecState, SecDef and D/ACDA agreed with DCI to suspend further approaches to Soviets on agreement banning weapons in space, and decided ~~xxxx~~ not to raise such a separate arms control ban in Geneva or New York. Question of tactics. SecState considering, however, with agreement of other principals, to again reiterate intention of the US not to be the first to place weapons of mass destruction in orbit and calling upon Soviet Govt to take similar position. Question of timing of such a statement involved.
